

Brace

Colours and materials

Brace is a wooden table series that combines aesthetics, functionality and sustainability – designed to create a warm and welcoming office atmosphere. With its softly shaped wooden a-legs in wood, carefully selected materials and thoughtfully designed accessories, Brace becomes more than just a place to meet, it is also a natural hub where people gather, exchange ideas and build relationships.

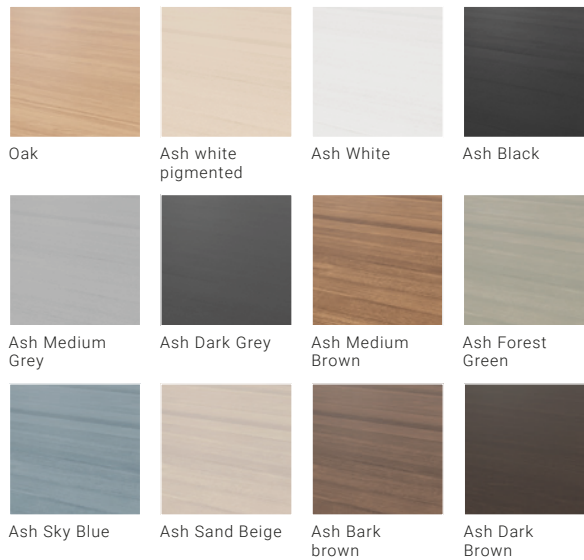

Table tops

Veneer

Wood veneer is a living natural material that adds warmth and character to the interior. Veneer feels warm and soft to the touch and is also less sound-generating than artificial materials.

Brace with veneered table top

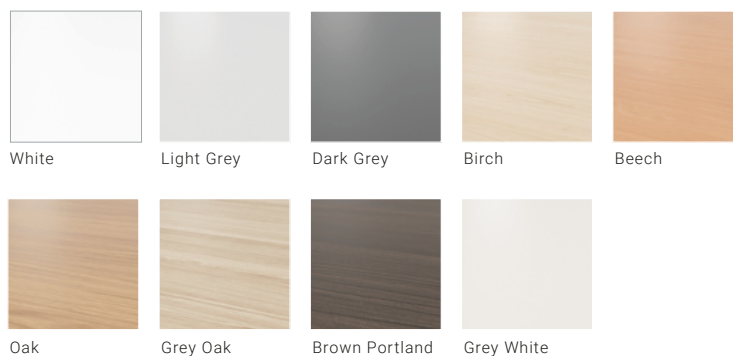

Laminate

Laminate is a durable and easy-care option for environments with high demands on wear resistance and easy cleaning.

Brace with laminate table top

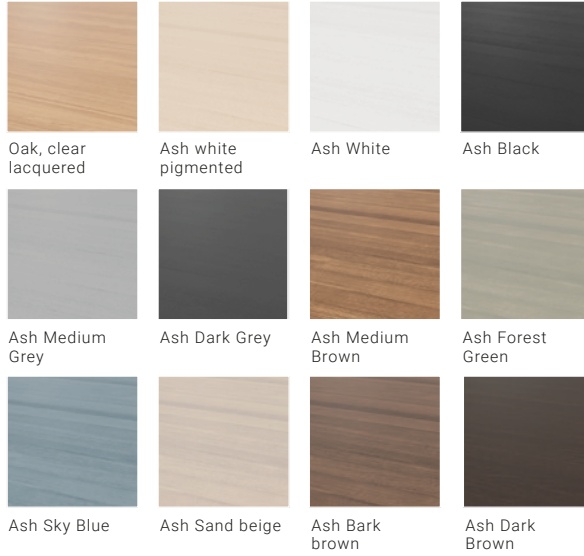

Legs

Solid wood

Solid wood is a living natural material that adds warmth and character to the interior.

Accessories

Vibe desk screens

As an option, movable Vibe desk screens are available and can be positioned to provide screening and create different zones. Choose screen fabric from KCS for creative environments. The feet are available in a range of accent colours.
