

# SUSTAINABILITY DECLARATION

## SERIE E ONE

## QUALITY AND ENVIRONMENTAL LABELLING

FSC: Products in veneer as well as white, beech, birch, oak, grey oak, grey-white, brown Portland and light grey laminate are labelled.

## MATERIAL CONTENT

Wood	17,3 kg	67 %
Steel	7,1 kg	28 %
Aluminum	0,8 kg	3 %
Plastic	0,5 kg	2 %
<b>Total</b>	<b>25,7 kg</b>	<b>100 %</b>

Disclaimer: Material content is based on Serie e one 168 with ORS200S legs.

## RECYCLED MATERIAL

Post-consumer recycled content	5,6 kg	34 %
Pre-consumer recycled content	8,7 kg	22 %
<b>Total recycled content</b>	<b>14,3 kg</b>	<b>56 %</b>

Disclaimer: Material content is based on Serie e one 168 with ORS200S legs. Numbers may vary based on model and options selected.

## RECYCLABILITY:

Material recycling	33 %
Energy recovery	67 %
<b>Total recyclability</b>	<b>100 %</b>

## TOTAL CO2:

21 KG

## FULFILLED TECHNICAL STANDARDS

- EN1729-1 Furniture – Chairs and tables for educational institutions – Part 1: Functional dimensions
- EN1729-2 Furniture – Chairs and tables for educational institutions – Part 2: Safety requirements and test methods
- EN 15372 Strength, durability and safety requirements for non-domestic table as meeting table, coffee table

## CHEMICAL DATA

The product does not contain:

Substances on Reach candidate list

Substances on Living Building Challenge Red List

Asbestos

Heavy metals

Phthalates

Brominated or halogenated flame retardants

PVC

Hexavalent chromium

Biocides

## COMPANY CERTIFICATIONS

- ISO 9001
- ISO 14001
- ISO 45001
- FSC® Chain of Custody

## PACKAGING AND TRANSPORT

The product is shipped with blankets and cardboard sheets as packaging material that is returned to the factories after delivery and reused. This method saves 270 kg of packaging material per container and enables 50% more products to be transported in each truck. Kinnarps' trucks have a load efficiency of over 90% and are run on diesel with renewable content that reduces CO<sub>2</sub> emissions.

## MATERIALS

- **Fabrics:** All of Kinnarps' standard fabrics are free from flame-retardants and azo dyes. Kinnarps can also offer multiple fabrics labelled with or fulfilling the requirements of EU Ecolabel and/or Oeko-Tex.
- **Wood:** We use FSC® and PEFC certified wood material in the production of our products. The origin and legality of all wood material is controlled and assessed in accordance with Kinnarps Timber Trading Policy. All wood boards fulfil high requirements regarding formaldehyde in accordance with CARB Phase II or half E1.
- **Metal finishing:** Kinnarps use powder coating for surface treatment of metal which gives very low emissions of volatile organic compounds (VOC). For chrome executions, only trivalent chrome is used.
- **Wood finishing:** Kinnarps treats the surface of veneered tables and storage with water based UV-lacquer which ensures very low application quantities of volatile organic compounds (VOC).
- **Plastic:** Plastic components that are used in products produced by Kinnarps are free from PVC and flame retardants, with the exception of some plastic parts of electrical components. The plastic is also free from PFOS, Bisphenol A and phthalates. Plastic components over 100 g are labelled according to ISO 11469.
- **Padding:** The padding in our task chairs is manufactured in Kinnarps' factory in Skillingaryd, Sweden, which enables us to have control over the whole process and ensure a safe production. The padding used in other products is certified with Oeko-Tex. All padding used in Kinnarps' products are free from flame-retardants and azo dyes.
- **Electronics:** Electronic components are CE-labelled and complies with the EU RoHS directive. This prohibits the use of lead, mercury, cadmium and hexavalent chrome, as well as the flame-retardants PDD and PBDE, in electronic products. Conflict minerals are not allowed in the components.
- **Separability:** Separability is taken into consideration in the product development process in order to facilitate the recycling of material when the products no longer can be used. Different types of material is not casted together in a way that makes it hard to recycle. Products are designed with replaceable parts that are easy to change.

## CARE AND MAINTENANCE RECOMMENDATIONS

<https://www.kinnarps.com/care-recommendations>

# RECYCLING

ID	Material	Tools for disassembly	Waste fraction
7	Steel	Screwdriver	Metal
13	Wood, Steel, Aluminum, ABS	Screwdriver	Metal, Combustible waste
16	PA6GF30%, POM	Manual Force	Plastic

*\*The product should in first hand be reused or remade before recycling its components.*

## LEED CONTRIBUTION

The product can contribute to the earning of points within the following credits.

### LEED V 4

#### Interior Design & Construction

MR Credit: Interiors life-cycle impact reduction	Kinnarps offers services for recycling, refreshing or reusing products.  Share of recyclable material in the product: 33 %
MR Credit: Building product disclosure and optimization – sourcing of raw materials	The product is FSC labelled as standard with the exception of some executions.  Recycled content: Post-consumer 22 %, Pre-consumer 34 %  Manufactured in Kinnarp, Sweden

#### Building Design and Construction

MR Credit: Building product disclosure and optimization – sourcing of raw materials	Recycled content: Post-consumer 22 %, Pre-consumer 34 %  Manufactured in Kinnarp, Sweden
MR Credit: Furniture and medical furnishings (healthcare)	The product contains no or less than 100 ppm hexavalent chromium, heavy metals, PFCs or PFOA, or added anti-microbial treatments.  The product is FSC labelled as standard with the exception of some executions.  Recycled content: Post-consumer 22 %, Pre-consumer 34 %

#### Building Operations and Maintenance

MR Credit: purchasing—facility maintenance and renovation	The product is FSC labelled as standard with the exception of some executions.  The product does not contain any substances on REACH Authorization or Candidate list.
---	---

## WELL v2 CONTRIBUTION

The product can contribute to preconditions or the earning of points within the following features.

### Optimizations

X08 Hazardous Materials Limitations	The product is free from mercury, cadmium, antimony and hexavalent chromium and may contribute to this feature.
X10 Volatile Compound Reduction	The product is free from halogenated flame retardants.
