fellow II

# Range

Fellow II is a series of foldable tables in two different versions. Choose between leg strips or four legs. On the four-leg models, it is possible to sit at all four sides of the table. Durable table tops of laminate increase the table's useful life. They are available in the following finishes: beech, birch, oak, light grey and white. A front panel, combination tops and a table trolley are also available as accessories in the series.

## Foldable training tables

## Combination table tops (Can be mounted on straight tables.)

### fellow II – foldable training tables

## fellow II

### **Foldable**

*The construction has lockable, diagonal supports for extra stability and easy handling. Unlock and fold the legs together, and Fellow II takes up very little storage space.*

### **Designed to be used**

*The legs on Fellow II are an attractive and practical design giving the user ample legroom. Supplement the desks with panels if required.*
